GLOBALGAP

- **PRACTICAL APPLICATION**

Course Overview

GlobalGAP is an international farm-management system for Good Agricultural Practice (GAP). It has been primarily designed to reassure consumers that farm practices minimise the detrimental environmental impacts of farming operations, chemical use has been reduced and a responsible approach to worker health and safety (as well as animal welfare) has been adopted.

This one-day course will provide delegates with an understanding of the GlobalGAP standard and its implementation requirements.

The course provides guidance on the documentation requirements which will allow the delegate to successfully implement GlobalGAP.

Course Objectives

- To equip delegates with knowledge of the Global GAP standard requirements
- To equip delegates, through practical guidance and examples, to implement the GlobalGAP system.

Entry Level Requirements

To ensure that this course is valuable to your company, delegates must be comfortable communicating in English and need suitable reading and writing skills.

A certificate of attendance will be issued once the course has been successfully completed.

Who Should Attend

- Supervisory level farm and packhouse employees
- Staff responsible for implementing GlobalGAP

Duration: One day

Language: English

Course Outline

- GlobalGAP background and history
- GlobalGAP standard requirements
- How to successfully implement the standard's requirements
- Documentation requirements.
