ISO 14001:2004

AN INTRODUCTION TO THE REQUIREMENTS

Course Overview

ISO 14001:2004 sets out the criteria for an environmental management system that can be implemented by any organisation, irrespective of its activity or sector.

By adopting ISO 14001:2004 management, employees and external participants will be assured that the environmental impact is being measured and improved.

The course will provide an overview of ISO 14001:2004's purpose and requirements.

This introductory training is interactive and incorporates visual examples that will create an understanding and buy-in towards successful implementation and maintenance of the system.

Course Objectives

To equip participants with basic knowledge about the ISO 14001:2004 environmental management system.

At the conclusion of the course, participants will be able to:

- demonstrate an understanding of the purpose and requirements of ISO 14001:2004
- identify nonconforming processes and products
- understand basic environmental aspects.

Entry Level Requirements

To ensure the value of the course to your company, delegates must be comfortable communicating in English and need suitable reading and writing skills.

A certificate of attendance will be issued once the course has been successfully completed.

Who Should Attend

- Floor workers
- Entry level technical staff
- Supervisors

Duration: Three hours
Language: English

Course Outline

- Background to ISO 14001:2004
- The need for an ISO 14001:2004 system
