PAS 223:2011

OVERVIEW OF THE REQUIREMENTS FOR SUPERVISORS

Course Overview

ISO 22000 sets out specific food safety requirements that include implementing and maintaining a PRP system to control food safety hazards. The certification scope of FSSC 22000 has (since 2011) been extended with Packaging Material Manufacturing with the publication of PAS 223 – Prerequisite programmes and design requirements for food safety in the manufacture and provision of food packaging.

PAS 223 will specify detailed requirements for establishing, implementing and maintaining PRPs (prerequisite programmes) that will address ISO 22000 requirements, as stipulated in clause 7.2.3 ISO 22000 for the food packaging manufacturer and supplier.

Course Objectives

The course will provide the participant with an understanding of the basic concepts of PAS 223:2011 and will equip the learner with:

- a basic knowledge of PAS 223 and an understanding of how this relates to the Food Safety Management System, ISO 22000
- the information and skills required to implement and maintain PAS 223 on a supervisory level
- information about changes to be made to an existing PRP system in order to adhere to PAS 220 requirements
- an understanding of their role in implementing PAS 223 in the work environment.

Entry Level Requirements

Participants should have attended a formal Introduction to HACCP training and must be able to read, write and communicate in English.

Who Should Attend

- Team leaders
- Factory-floor supervisors
- Staff who need a basic understanding of PAS 223:2011's requirements.

Duration: One day

Language: English

Course Outline

- Background to PAS 223:2011
- Requirements of PAS 223:2011
- Your responsibilities
- Practical application – exercises and case studies.
